---

At 40 degrees above zero, sailors usually wear heavy down jackets or parkas and heavy trousers or overalls. They also wear heavy gloves and boots.

When the wind blows, the sails are hoisted and the boats are pushed along the ice. The sailors are usually seen in the background, pushing the boats.

When the wind blows, the sails are hoisted and the boats are pushed along the ice. The sailors are usually seen in the background, pushing the boats.

The sailors are usually seen in the background, pushing the boats. The boats are usually seen in the foreground, pushing the ice.

The sailors are usually seen in the background, pushing the boats. The boats are usually seen in the foreground, pushing the ice.

The sailors are usually seen in the background, pushing the boats. The boats are usually seen in the foreground, pushing the ice.

The sailors are usually seen in the background, pushing the boats. The boats are usually seen in the foreground, pushing the ice.
